- **SmartLock™**

(Remote # G1599SA)

This television receiver provides display of television closed captioning in accordance with §15.119 of the FCC rules.

Let's make things better.

PHILIPS

Picture

Smart Window™ PIP

Monitor one video source such as a TV channel, the Internet, a videotape, DVD, or video game while watching another. You can swap the main and secondary pictures, or position the PIP window in any screen corner.

Digital Comb Filter

Digital circuitry cleanly separates black and white detail from color data virtually eliminating dot crawl and delivering unmatched, razor-sharp picture performance with 700+ lines of horizontal resolution.*

36" Dark Glass Flat Square Picture Tube

Our flat square tube offers more viewing area, 35% transmission dark glass faceplate, black matrix, and specially-tinted phosphors for the best picture in its class.

Remote Control

Lighted Universal TV/VCR/Cable Remote

Lighted buttons for easy TV, VCR, and cable operation even in low light. (Remote # G1599SA)

Convenience

SmartLock™

Protect young children from harmful programming with V-chip technology based on the Motion Picture Association of America (MPAA) and the network television rating systems.

Front Stereo A/V Jacks

For fast, easy connection of external video sources (VCR, camcorder, or video games) nothing beats front audio/video input jacks.

Personal Preference

Scan through your favorite channels at the touch of a button. Preprogram up to four channels into each of four categories for a total of 16 different selections. Instant access to four personal favorites each for mom, dad, sis, and junior.

Alternate Channel

Keep close tabs on 2 different channels with one-button convenience.

View Timer and Sleep Timer

Drift off to sleep or wake gently to your favorite shows. The View Timer automatically turns the TV on to a preselected channel at a preset time, and the Sleep timer automatically turns the set off at a preset time. Program up to 10 hours preset time in 30-minute increments.

S-Video Input

Enjoy all the benefits of high-resolution video sources such as DVD, S-VHS, or DBS satellite with this quick and easy S-Video jack. S-Video transmissions divide video signal into chrominance (color) and luminance (brightness). Because televisions are setup to display separate chrominance and luminance signals, separate sources produce a clearer image for greater viewing pleasure.

Trilingual Onscreen Display

Control various television features with easy onscreen displays in your choice of English, Spanish, or French.

Auto Programming

Automatically scans all available channels—from regular antenna or cable—and programs only active broadcast stations into memory.

Closed Caption

Allows the hearing impaired to read dialogue and narratives (on Closed Caption telecasts) without the use of an external decoding device. Excellent for development of language skills and private viewing without disturbing others.

SmartLock and SmartWindow are trademarks of Philips Consumer Electronics Company.

Onscreen Volume Bar

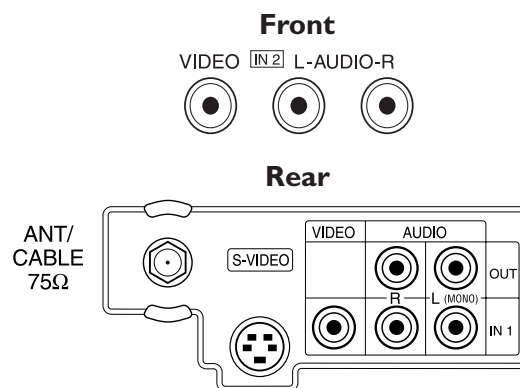

When activated, this feature displays an onscreen volume bar for a visual indication of the volume setting.

Sound

Stereo Sound System

The built-in stereo sound system incorporates an MTS decoder for reception and reproduction of broadcast stereo television programs (where available).

Audio/Video Jack Panel (JP0409)

Stereo A/V Input/Output Jacks with S-Video Input

For connection of high-resolution video accessories.

Additional Features Include:

- Channel edit
- Total remote menu format tuning with multicolor onscreen graphics
- 181-channel capability
- 4-way cursor control
- Direct channel access
- Programmable scan tuning
- Input/status
- Mono/stereo select
- Cable/normal select
- Two 5.5" oval, full-range speakers
